NILOOFAR AHMADI

SUMMARY

- **Research on oil polluted soil by fungus and bacteria such as *Volvariella volvacea* and *Auricularia auricula* in Iranian Research Organization for Science (IROST)**
- **Research on efflux pumps of the yeast and proteomics**
- **Research on prostate and breast cancer**
- **Skillful in immunology and serology**
- **Research on molecular genetics of edible mushrooms and gram positive bacteria**
- **Biology teacher in the Biocamp laboratory**
- **Using bioinformatic for genes**
- **More than 3 years experience in a medical laboratory**
- **Represent articles in Iranian conferences**
- **Having skills and proficiencies in microbiology and genetics**
- **Being able to Speak Persian, English and get familiar with German languages**
- **Eager to learning and teaching, team working, creating motivation and guidance of teams, innovation in solving problems**

SKILLS & ABILITIES

- ✓ **Excellent in making media and culture**
- ✓ **Having mastery in molecular genetics techniques**

- ✓ **Excellent in PCR**
- ✓ **Excellent in SDS-page gel and running proteins**
- ✓ **Excellent in primer design**
- ✓ **Excellent in proteomics and using ultracentrifuged**
- ✓ **Having mastery in R-studio**
- ✓ **Having mastery in nanopore sequencing**
- ✓ **Having mastery in culturing fungus on potato dextrose agar and spawn**
- ✓ **Having mastery in producing biosurfactant via fungus and bacteria**
- ✓ **Excellent in antibiotic susceptibility test**
- ✓ **Having mastery in DNA extraction**
- ✓ **Having mastery in RNA extraction**
- ✓ **Having mastery in protein extraction(proteomics)**
- ✓ **Excellent in sucrose gradient**
- ✓ **Having mastery in making cDNA**
- ✓ **Research on antibiotic resistance**
- ✓ **Excellent in western blot**
- ✓ **Excellent in electrophoresis and making its gel**
- ✓ **Excellent in making different cultures**
- ✓ **Skillful in bioinformatics**
- ✓ **Excellent in microbiology methods**
- ✓ **Having mastery in teaching**
- ✓ **Excellent in speaking Persian, English**
- ✓ **Having mastery in doing routine procedure of medical laboratory**
- ✓ **Excellent in gram staining bacteria**

EXPERIENCE

- **Research assistant and teacher assistant (Lab microbiology and biochemistry)**

2022-2024

- **ENGLISH TEACHER IN NIK SEGAL AND ERDOSH AND ONLINE CLASSES**

2018-2021

- **APADENA LABORATORY**

2018-2021

- **RESEARCH TRAINEE IN NIKAN ROYESH GENE**

- **2017-2018**

- **BIOLOGY TEACHER IN BIOCAMP-VIRAVIGENE AND NIKAN ROYESH GENE**

FEBRUARY-JULY 2017

- **TRAINEE IN MEDICAL LABORATORY IN MICROBIOLOGY, CEROLOGY, HEMAOLOGY IN MUNICIPALITY CLINIC**

APRIL 2016

EDUCATION

- **Graduate student in microbiology (university of Manitoba)**
- **G.P.A: B+**
- **Graduated in M.S.c degree in microbiology -University of research and science branch of Tehran)**
- **G.P.A: 18.43 OUT OF 20**
- **GPA=A**
- **Thesis: biodegradation of oil contaminated soil by edible mushroom(*Volvariella Volvacea*)**

Professors: Mahnaz Mazaheri assadi and Abbas Farazmand

SEPTEMBER 2013-2015

- **Graduated in B.Sc. degree in Microbiology-University of Shahre-Ghods Azad University in Tehran**
- **G.P.A: 16.53 OUT OF 20**
- **GPA=B^{+}**

SEPTEMBER 2004-2009

ARTICLEES AND CONFRENCES

- **Mona Mirgeloybayat, Mahnaz Mazaheri Assadi, Niloofar Ahmadi, Soroosh danaee and Mohsen Vaez. Identification of a strain of *Auricularia* and Taguchi optimization of petroleum-polluted soil mycoremediation (2023).Bioremediation Journal.**
- **All of my articles in https://scholar.google.com/**
- **Ahmadi, N., Shafaati, M., Mirgeloybayat, M., Lavasani, P. S., Khaledi, M., & Afkhami, H. (2021). Molecular identification and primary evaluation of bio-surfactant production in edible paddy straw mushroom. *Gene Reports*, *24*, 101258.**
- **Rahbarzare, Farnaz, et al. "Study of the side effects of Docetaxel as chemotherapy medicine on changing the expression of genes of Enterococcus faecalis isolated from patients with breast cancer." (2019).**
- **Talebzade, T., Rahbarzare, F., Ahmadi, N., Naderifar, S., Eslahi, E., Mirgeloybayat, M., ... & Sadeghi, S. (2018). Chemotherapy could induce antibiotic resistance in e. faecalis in patients with colorectal cancer. *J. Inf. Mol. Biol*, *6*(2), 22-27.**
- **Sadeghi, S., Talebzade, T., Altafi, D., Hojatian, H., Rafiei, S. T., Naderifar, S., ... & Haghighatfard, A. (2018). Immunotherapy of prostate cancer may change mrna level of virulence factor genes in E. Faecalis of microflora J. Inf. *Mol. Biol*, *6*(1), 1-6.**
- **Talebzade, T., Baghbani-arani, F., Sadeghi, S., Haghighatfard, A., & Ahmadi, N. (2017). Immunotherapy of Prostate Cancer Patients could Overexpress The Virulence Factor Genes of E. faecalis. *ECOA*, *1*, 11-14.**

Iranian journals and international conferences:

- **Niloofar Ahmadi, Mona Mirgeloybayat, Paria Lavasani. Molecular analysis and evaluation biosurfactant production of edible paddy straw mushroom Volvariella volvacea in 5TH national &1the international congress on novel & innovation laboratory technologies Razi international conference center (2018).**

- **Niloofar Ahmadi, Mahnaz Mazaheri Assadi, Abbas Farazmand (2014). Cultivated volvariella volvacea on lignocellulitic agricultural. Industrial microbiology in Irannian Journal.(2015).**
- **Presented Immunotheraphy of prostate cancer patients could overexpress the virulence factor genes of E.faecalis article. Journal of microbiology in ICB 2017 international congress.**
- **Recorded 2 new genes of fungi (Volvariella volvacea and Auricularia auricula) in https://www.ncbi.nlm.nih.gov/**
- **Participated in labratoary science congress in 2017**
- **Certificated in participated in conferences and represented articles**

VOLUNTEER WORK

- **Voluntary member of UMISA**
- **I am the leader (admin) of Iranian newcomers (pick up from airport, finding the place for them and so on)**
- **Voluntary member for Canadian materials science conference (2023)**
- **Voluntary member of Iranian charity (Khaneh, Mehr Taha)**

- **Voluntary member of animal charity(fountain-maral)(Tommy and maziar)**
- **I was a volunteer for Covid-19 project in Rasoul Akram Hospital(Tehran, Iran)**

COMMUNICATION

- **Ability in communicating and making relationships**
- **Team working**
- **Problem solving**
- **Having tolerance**
- **Creating motivation and team leading and guiding**
- **Having professional ethics**
- **Being punctual and trustful**

LEADERSHIP

- **I was a teacher assistance in University of Manitoba**
- **I was a teacher in biocamp company**
- **I was a teacher assistance in culturing mushrooms for biology purposes in IROST company**
- **Leader in research project in Nikan Royesh**
- **I was a teacher and supervisor in Nik segal English institute**
- **I was the manager of my English online classes**

PERSONAL INTERESTS

- **Watching documentary movies**
- **Hiking**
- **cooking**
- **Writing and research**
- **Studying and Reading**
- **Visiting ancient and artistic places**
- **Traveling**
- **Swimming**
- **Talking about interesting subjects**
- **Buying clothes**
